Placement

OUR COMPANY SUGGESTS THE INSTALLATION BE CARRIED OUT AT A WORKSHOP OR BY QUALIFIED STAFF

- Clear the area surrounding the engine.
- Put together the plastic parts and the support brackets as shown in Photos No 1 & 2 - Put the clip nuts on the support brackets.
- Place the rubber washers on the engine spoiler's holes.
- Put the spoiler in position and make sure that the brackets are in the correct position.
- Screw tight until you've reached the rubber washers.
