

INSTRUCTIONS

MODEL : SUZUKI GSX1300R HAYABUSA
08

PRODUCT : REAR HUGGER

CODE : FC-SGSX1300R/08

CONTENTS

Plastic cover
6pcs. Velcro sets

MATERIAL SPECIFICATIONS

The product's material, made of **ABS** plastic with acrylic exterior layer, can be placed on your bike without requiring painting but if you want it painted, all paint companies have equivalent machinery at their disposal. If you want to paint it yourself, you should contact them to inform you on what you will need and how to do it.

Placement

OUR COMPANY SUGGESTS THE INSTALLATION BE CARRIED OUT AT A WORKSHOP OR BY QUALIFIED STAFF

- Clean well with soap water the spot on the frame where you will fit the cover. Dry the entire area very well.
- Place the cover on the frame to find its exact position (you will have to unscrew the base of the gear lever).
- It is not necessary to remove the motorcycle's fairing – you can slide the cover just by stretching the fairing a little bit.
- Clean with some alcohol the whole area on which the cover will be placed.
- Place the Velcro pieces joined in sets as shown in Photo No 1.
- Remove the protective film of the tape and stick it on the cover by pressing it on the points where the Velcro pieces are placed) Photo No 2).
