

# INSTRUCTIONS

**MODEL :** KAWASAKI Z 1000 '08

**PRODUCT :** REAR HUGGER

**CODE :** RH-KZZR1400

## CONTENTS

Plastic hugger  
2pcs. M6x15 screws  
1pc. M6x20 screw

## MATERIAL SPECIFICATIONS

The product's material, made of **ABS** plastic with acrylic exterior layer, can be placed on your bike without requiring painting but if you want it painted, all paint companies have equivalent machinery at their disposal. If you want to paint it yourself, you should contact them to inform you on what you will need and how to do it.

### Placement

**OUR COMPANY SUGGESTS THE INSTALLATION BE CARRIED OUT AT A WORKSHOP OR BY QUALIFIED STAFF**

- Remove the chain guard.
- Clean the area around the swing arm.
- Remove the base that holds the rear brake tube.
- Remove the protective membrane from the hugger.
- Put the hugger in place (slide the right side of the hugger beneath the brake tube).
- Screw the right side of the huggers base on the rear brake tube (together with the hugger), and the left side on the old location of the chain guard.
- Before you tighten the screws ensure that the hugger is placed correctly (centered with the wheel).
