### Placement

#### OUR COMPANY SUGGESTS THE INSTALLATION BE CARRIED OUT AT A WORKSHOP OR BY QUALIFIED STAFF

- Clean the area around the engine.
- Place the support brackets as shown in Photos No 1 & 2, after you have placed the clip nuts inside the square holes.
- Place the rubber washers around the engine spoilers' holes.
- Put the spoiler in position and ensure that you have fitted properly the brackets on the engine.
- Tighten the screws so that the rubber washers are all well pressed together.
