

INSTRUCTIONS

MODEL : TTRIUMPH STREET TRIPLE

PRODUCT : REAR HUGGER

CODE : RH-TST675/08

CONTENTS

Plastic fender

MATERIAL SPECIFICATIONS

The product's material, made of **ABS** plastic with acrylic exterior layer, can be placed on your bike without requiring painting but if you want it painted, all paint companies have equivalent machinery at their disposal. If you want to paint it yourself, you should contact them to inform you on what you will need and how to do it.

Placement

OUR COMPANY SUGGESTS THE INSTALLATION BE CARRIED OUT AT A WORKSHOP OR BY QUALIFIED STAFF

- Clean well the area around the swing arm.
- Remove the base holding the rear brake tube (Photo No 1).
- Remove the protective membrane of the hugger.
- Place the hugger in position (the right edge should be beneath the brake tube base). Photo No 2
- Tighten the hugger using the old screws
- Before doing so, check to see that the wing is in correct position.
