

INSTRUCTIONS

MODEL : TRIUMPH TIGER 1050

PRODUCT : REAR HUGGER

CODE : RH-TTIG1050

CONTENTS

Plastic hugger

MATERIAL SPECIFICATIONS

The product's material, made of **ABS** plastic with acrylic exterior layer, can be placed on your bike without requiring painting but if you want it painted, all paint companies have equivalent machinery at their disposal. If you want to paint it yourself, you should contact them to inform you on what you will need and how to do it.

Placement

OUR COMPANY SUGGESTS THE INSTALLATION BE CARRIED OUT AT A WORKSHOP OR BY QUALIFIED STAFF

- Remove the chain guard.
- Clean the area around the swing arm.
- Remove the protective membrane from the hugger.
- Put the hugger in place (slide the right side of the hugger beneath the brake tube).
- Tighten the hugger using the old screws
- Before you tighten the screws ensure that the hugger is placed correctly (centered with the wheel).
